RE: Delinquent Discharge Monitoring Report(s)
Permit No.: CO-0029793; Dolores County

Dear Mr. Sell:

Part I, Monitoring and Reporting, of the discharge permit issued for your facility requires that the discharge from the facility be monitored at specified frequencies and that the analytical results be reported to this Division and to the EPA. The data are to be submitted on Discharge Monitoring Report (DMR) Form 3320-1. If no discharge occurred during the entire period in question, you are required to report "no discharge" on the DMR form. Failure to submit the report within the required timeframe constitutes a violation of the permit.

A review of our records indicates that we have not received the report(s) for outfall(s) 002W for the period of July 1 through September 30, 1994. If your records indicate that DMRs for all outfalls were submitted, then they may have crossed in the mail. Please check with Darlene Casey at 692-3599 to see if we have received the DMR(s) before you send a copy.

In the event that you overlooked this submittal, please provide the report(s) by November 25, 1994.

If you have any questions, please contact Darlene Casey at (303) 692-3599.

Sincerely,

Patricia A. Nelson, P.E.
